

File description

Number	Type	Suffix/Name	Description
1	MATLAB files	.m	Main program and subprogram of the App
2	MATLAB save files	.mat	Used for read the existed results for regional scale analysis
3	cLiNUs_V1	.mlappinstall	Used for App installation
4	Excel files	loading_unsteady	Rainfall loading from Excel
		loading_sinkterm	Rainfall loading from Excel
5	Text files	hs_2m	DEM map
		slope_LP	Three maps required for landslides prediction (regional case I)
		property_LP	
		slope_LP	
		property_Runoff	Three maps required for runoff simulation (regional case II)
		thickness_Runoff	
		slope_Runoff	
		failure_time	Output of the failure time result
		failure_depth	Output of the failure depth result
		novege_run_48	Output of the runoff result without considering vegetation effect for 48 hrs
		vege_run_48	Output of the runoff result considering vegetation effect for 48 hrs
